2 Policy Decisions

2.1 Business Purpose

The Arch underwriting unit that purchases FAC reinsurance on just about 100% of their book of business is Alternative Markets. This is a Captive book that contains thousands of member policies most of which may have FAC purchased. It is an ever-evolving step in the policy workflow where we customize the fac purchase to either all coverages on a policy or just a portion. We could limit the FAC placement, to a coverage, location or even a building. We are constantly adding new reinsurers to our portfolio, while discontinuing our relationship with others. It is because of this, that the preferred build of some of the field values listed in this document be built in a way that Arch can be a self-service client with respect to the maintenance of these.

2.2 Assumptions/Constraints/Dependencies/Out of Scope

Mark this box with an "x" if this section is not applicable to the enhancement.

ID	Assumption	Reference
AS01	Except for the changes mentioned in this document, Facultative Reinsurance screen should perform as it currently does.	
AS02	No Rating/RW, Pass1, Pass 2 and forms changes associated with this enhancement.	
AS03		

2.3 Process

2.3.1 Current Process

ID	Description
CP01	The user input fields outlined in this requirement do not have rule/edits enforces that are compatible with their respective WINS field.

2.3.2 Proposed Process

ID	Description
PP01	Add rule/edits enforces that are compatible with their respective WINS fields to the user input fields outlined in these requirements so that they are compatible with their respective WINS field.

2.4 Business Requirements

ID	Business Requirements	Reference
Category 1	User Interface	
BR101	"Reinsurance Program" shall be consistent between the "Miscellaneous Policywriting Information" and "Facultative Reinsurance: Slip" screens.	GAP-002 FR0101, FR0102 SPRINT 42
BR102	"Ceding Commission Percent" shall be required on the "Facultative Reinsurance: Slip" screen.	GAP-004, FR0103 SPRINT 42
BR103	On the "Facultative Reinsurance: Slip" screen "Limit" shall always be greater than "Losses Excess Of".	GAP-005 FR0104 SPRINT 42
BR104	"Limit" on the "Facultative Reinsurance: Slip" screen shall not be greater than the "General Aggregate Limit" on the GL Policy Information screen.	GAP-006 FR0105 SPRINT 42
BR105	On the "Facultative Reinsurance: Slip" screen "Incurred from" and "Incurred to" shall be prefilled as follows: Incurred from = Policy inception date Incurred to = Policy expiration date – 1 day. User shall be able to change these values. If a value in either field is changed, the system shall validate, that the new dates does not fall outside of the range between inception and expiration – 1 date. This validation shall be done when a user leaves either one of these fields. Also, "Incurred from" date cannot be after "Incurred to".	GAP-012 FR0106, FR0107 SPRINT 42

ID	Business Requirements	Reference
BR106	On the “Product” tab of ‘Facultative Reinsurance” screen, PDE shall add system control over the selection of “Product”, “ASLOB” and “Subline” to ensure that the user has selected the right combination acceptable by WINS. This will replace manual entry of this data which is prone to errors.	GAP-001 FR0108 SPRINT 43
BR107	“Product” and “ASLOB” shall be mandatory input on the “Facultative Reinsurance: Product” screen.	GAP-007 FR0109 SPRINT 43
BR108	“Subline” value on the “Facultative Reinsurance: Product” screen shall be derived based on “Product”/ “ASLOB” combination.	GAP-008, BR 106. FR0110 SPRINT 43
BR109	“Reinsurer” on the “Facultative Reinsurance: Reinsurer” screen shall be a dropdown list.	GAP-009 FR0111 TBD
BR110	Table of approved Reinsurers shall be available to maintain in Utilities. <i>Option: just like Producers table.</i>	GAP-009 FR0111 TBD
BR111	User shall be able to reinsure more than 1 location/building by adding another product with the same ASLOB.	GAP-014 FR0112 TBD
BR112	“Ceding Premium Amount” on the “Facultative Reinsurance: Slip” screen shall not exceed “Policy Total” (Written Premium).	GAP-011 FR0113 SPRINT 43
Category 2	Pass 2	
BR201	“FAC slip description” from the “Facultative Reinsurance: Slip” screen should be passed to “FAC Slip” field in WINS in lieu of “Reinsurance Program Code”.	GAP-015 TBD

2.5 Functional Requirements

2.5.1 General Information

	Topic/Requirement
Writing Companies	
FR0001	All
States	
FR0002	All
Line of Business	
FR0003	All
Effective Date	
FR0004	10/01/2021
User Types – Agents/Brokers, Insureds/Consumers, Internal Users Only	
FR0005	N/A
Organizational Structure – Are there any specific requirements to implement this change for a particular program, business unit, regional office or other customer-specific organizational structure?	
FR0006	N/A
Product/Area of Impact – Policy, Billing, Claims, Reporting Decisions, DataHouse	
FR0007	PDE
